Education

University of Dhaka [🔗](#)

2024 – 2025

Master of Business Administration (MBA), Major in Management Information Systems (MIS)

- **GPA:** 3.44/4.0
- **Coursework:** System Analysis and Design, Simulation and Systems Modeling, Networking: Telecommunication, Spreadsheet Analysis & Modeling, etc.

University of Dhaka [🔗](#)

2018 – 2023

Bachelor of Business Administration (BBA), Major in Management Information Systems (MIS)

- **GPA:** 3.43/4.0
- **Coursework:** Programming for IS, Database Management Systems, Advanced Information Systems, Decision Support Systems, etc.

Institute of Cost and Management Accountants of Bangladesh (ICMAB) [🔗](#)

2021 – 2023

Cost and Management Accountant (CMA)

- **Score:** 650 (partially certified)

Test Scores

Graduate Record Examination (GRE) [🔗](#)

2024

- **Total:** 310 (152 Verbal, 158 Quantitative) - 2nd Attempt
- **Total:** 306 (145 Verbal, 161 Quantitative) - 1st Attempt

Test of English as a Foreign Language (TOEFL) [🔗](#)

2024

- **Total:** 99 (25 Reading, 23 Listening, 25 Speaking, 26 Writing)

Research Interests

IS and AI enabled Digital Transformation in Social Pain-points like Health, Education, Sports, and Business Supply Chain, e-Health Decision-making and Analytics, Hospital Information Systems (HIS), Machine Learning

Professional Experience

Senior Executive, Sales-MIS

Bashundhara Group [🔗](#)

Dhaka, Bangladesh

January 2026 – Present

- Overseeing the SAP, Inhouse ERP, and CRM systems for Bashundhara Group, one of Bangladesh's top conglomerates in the manufacturing industry.
- Leading data analysis for Bashundhara Cement, Bashundhara ReadyMix, PHC Pile Concern, utilizing PowerBI, Excel, SQL, and Python to generate insights for sales and target planning.
- Responsible for technical sales and data maintenance, including Sales MIS, target setting, achievement analysis, forecasting, and strategic planning.
- **Skills:** PowerBI, Excel, SQL, Python, ERP, CRM, Data Analytics, Forecasting, Sales Planning.

MIS Executive

Quasem Foundation (A concern of Quasem Group) [🔗](#)

Dhaka, Bangladesh

May 2025 – January 2026

- Handling end-to-end coordination of the ongoing development of ERP/Hospital Information System (HIS) Software for the concern: 'Quasem Foundation' with its 3 Eye hospitals, 1 Maternity Hospital, 9 vision centers, and regular vision camps, aligning the organization's needs with software development team to

enhance most user-friendly healthcare operations.

- Generating daily performance-financial equipped automated program reports (using Power BI, Excel, and SQL mainly), with real-time tracking of KPIs like SKU-wise performance and tracking targets each day for all 13 Centers to help the overall Achievements.
- Maintaining the international Donors Reports based on their reporting requirements (Seva Foundation: United States, Cure Blindness Project (CBP): United States, SightSavers: United Kingdom etc.).
- Comparing and tracking performance analyzing regular data of all 13 centers in daily/monthly/yearly basis for program management.
- Working in the research and development (R&D) on the 'Vision Center' unique model and the publications.

Administrative Operations Manager & Business Development Intern

Geist International Foundation (GIF) [🔗](#)

Dhaka, Bangladesh
May 2023 – Sep 2024

- Led community-driven projects including "Wheels of Change" (GCERF/Kofi Annan Foundation) and "Quality Education for Children with Autism" (EMK Center), enhancing operational alignment and community impact.
- Managed databases for the "English Access Micro-scholarship Program" (U.S. Department of State/U.S. Embassy), improving data accuracy for 500+ students and streamlining reporting.
- Spearheaded end-to-end project execution, system development, and financial/impact tracking.

Publications

A Roadmap for the Implementation of Blockchain Technology throughout the Rice Supply Chain in Bangladesh [🔗](#)

2022 — Published in
'Supply Chain Insider'

Rasel Shikder, Esrak Fardin Ratul, MD Zumman Siddique, Nazifa Tabassum

Use of Explainable Machine Learning with Cluster-Based Feature Engineering to Evaluate Students' Dropout Risk Based on Student Lifestyle Dynamics in Developing Countries

Submitted in an
International Journal

Dr. M. Helal Uddin Ahmed [🔗](#), Rasel Shikder, Subrina Ritu

An explainable AI framework for South Asian e-learning predicting student adaptability, auditing and mitigating algorithmic bias with calibrated boosting, SHAP-LIME, and fairness evaluation

Submitted in an
International Conference

Dr. M. Helal Uddin Ahmed [🔗](#), Rasel Shikder, Nawfel Kabir

Forecasting Football Player Performance and Injury Risks with Machine Learning Models

In Progress

Asif Imtiaz [🔗](#), Rasel Shikder

Projects

Injury Prediction Model for Professional Football

[GitHub Link](#) [🔗](#)

- Predicting injuries in professional football to optimize team performance and player management.
- Tools Used: Python, Keras, TensorFlow.

Financial and Regional Performance Analysis of Agrani Bank Plc (2019-2023) Using Excel and Power BI

[GitHub Link](#) [🔗](#)

- Analyzing the financial and regional performance of Agrani Bank Plc using Excel and Power BI, incorporating financial trends and geospatial analysis.
- Tools Used: Excel, Power BI.

Architectural Firm Data Analytics and Digital Presence

[GitHub Link](#) [🔗](#)

- Analyzing the Institute of Architects Bangladesh (IAB) dataset, focusing on firm distribution, designation trends, and digital presence using Pandas, NumPy, and Matplotlib.
- Tools Used: Python, Pandas, NumPy, Matplotlib.

Stata and SPSS Data Analysis

[GitHub Link](#) [🔗](#)

- Academic research related data analysis using different survey data, including statistical tests, regression models, and data visualization.
- Tools Used: Stata, SPSS.

Specific Machine Learning Model Practices

[GitHub Link](#)

- Various machine learning model developing practices focused on Data analytics in Decision Support System, including: [Support Vector Machine \(SVM\) on Diabetes Dataset](#), [Sentiment Analysis on Product Reviews \(Multinomial Naive Bayes\)](#), [Logistic Regression on Airlines Data](#), [Real Estate Regression Analysis](#),

Technologies

Languages: Python, SQL, JavaScript, C++ (Basic)

Database Management: MySQL

Packages: Pandas, Matplotlib, Seaborn, TensorFlow, scikit-learn, Selenium, Scrapy

Applications: MySQL Workbench, PyCharm, Looker Studio, Power BI

Version Control: Git, GitHub

Other Tools: QuickBooks, Tableau, Stata, SPSS, LaTeX

Leadership & Extracurricular Activities

Captain, MIS Football Team *University of Dhaka* 2023

- Led the university football team, enhancing teamwork and strategic skills.

Organizer, MIS-Ing Football Tournament *University of Dhaka* 2021, 2022

- Organized a popular intra-department Futsal tournament, fostering community engagement.

General Secretary, Dhaka University Studnets' Association of Kotalipara (DUSAK) 2022 – 2023

- Organized 'Sheikh Russel Olympiad' with 600 participants for rural educational development.

Competitions & Awards

Supply Chain Research Challenge 2.0 *Winner of 95% Scholarship in Supply Chain Program* 2022

- Awarded for outstanding performance in the competition.

Battle of Minds by British American Tobacco (BAT) *Bootcamp, FGD Round 3* 2022, 2023

- Participated in a prestigious competition focusing on innovation and strategy.

Innovator by Voice of Business *Finalist* 2019

- Recognized for innovative ideas and solutions in the competition.

Advanced Certifications

Machine Learning and AI Bootcamp *MIS, DU Alumni*

- Python, Jupyter Notebook, Google Colab, PyTorch, TensorFlow, Scikit-learn, Pandas, SVM, NLP, etc.

PowerBI Certification *ICDB Certified*

- Expertise in PowerBI for data visualization and business intelligence.

Python for Data Analysis and ML *Udemy*

- Skills in Python for data analysis and machine learning applications.
